

## Threat Update Service\* Advisory Protection Pack 2014-07-24-01 Released July 25, 2014

**Purpose:** The Corero Security Active Response Team has issued this Prevention Advisory to protect customers against potential attacks targeting the Adobe Acrobat and Reader CVE-2014-0523 Memory Corruption Vulnerability.

**Issue:** A memory corruption vulnerability exists in the Adobe Reader and Acrobat. This could allow an attacker to execute arbitrary code on the victim's machine by enticing the victim to open a specially crafted PDF file. An attacker who successfully exploited this vulnerability could take complete control of an affected system.

**Recommended Action:** Apply the specified Protection Pack (or any later one) and ensure the associated rule is used to inspect traffic to the affected product infrastructure.

<b>Issue Identifier</b>	CVE-2014-0523
<b>Advisory</b>	<a href="http://helpx.adobe.com/security/products/reader/apsb14-15.html">http://helpx.adobe.com/security/products/reader/apsb14-15.html</a>
