

Threat Update Service* Advisory

Protection Pack 2014-08-29-02 Released August 29, 2014

Purpose: The Corero Security Active Response Team has issued this Prevention Advisory to protect customers against potential attacks targeting the Adobe Flash Player CVE-2014-0531 Cross-site Scripting Vulnerability.

Issue: A cross-site scripting vulnerability exists in the Adobe Flash Player. This could allow an attacker to execute arbitrary scripts on the victim's machine by enticing the victim to open a specially crafted file.

Recommended Action: Apply the specified Protection Pack (or any later one) and ensure the associated rule is used to inspect traffic to the affected product infrastructure.

Issue Identifier	CVE-2014-0531
Advisory	http://helpx.adobe.com/security/products/flash-player/apsb14-16.html
