

**Threat Update Service\* Advisory**  
**Protection Pack 2014-06-16-01 Released June 16, 2014**

**Purpose:** The Corero Security Active Response Team has issued this Prevention Advisory to protect customers against known attacks targeting the Adobe Flash Player CVE-2014-0535 Remote Security Bypass Vulnerability.

**Issue:** A security bypass vulnerability exists in the Adobe Flash Player. This could allow an attacker to bypass sandbox restrictions on the victim's machine.

**Recommended Action:** Apply the specified Protection Pack (or any later one) and ensure the associated rule is used to inspect traffic to the affected product infrastructure.
