

Threat Update Service* Advisory
Protection Pack 2014-12-19-02 Released December 19, 2014

Purpose: The Corero Security Active Response Team has issued this Prevention Advisory to protect customers against known attacks targeting the Adobe Flash Player CVE-2014-0580 Security Bypass Vulnerability.

Issue: A security bypass vulnerability exists in the Adobe Flash Player. This could allow an attacker to access sensitive information and bypass access restrictions on the victim's machine by enticing the victim to open a specially crafted SWF file.

Recommended Action: Apply the specified Protection Pack (or any later one) and ensure the associated rule is used to inspect traffic to the affected product infrastructure.

Issue Identifier	CVE-2014-0580
Advisory	http://helpx.adobe.com/security/products/flash-player/apsb14-27.html
