

**Threat Update Service\* Advisory**  
**Protection Pack 2015-02-19-01 Released February 19, 2015**

**Purpose:** The Corero Security Active Response Team has issued this Prevention Advisory to protect customers against known attacks targeting the Adobe Flash Player CVE-2015-0329 Memory Corruption Vulnerability.

**Issue:** A memory corruption vulnerability exists in the Adobe Flash Player. This could allow an attacker to execute arbitrary code on the victim’s machine by enticing the victim to open a specially crafted SWF file.

**Recommended Action:** Apply the specified Protection Pack (or any later one) and ensure the associated rule is used to inspect traffic to the affected product infrastructure.

<b>Issue Identifier</b>	CVE-2015-0329
<b>Advisory</b>	<a href="https://helpx.adobe.com/security/products/flash-player/apsb15-04.html">https://helpx.adobe.com/security/products/flash-player/apsb15-04.html</a>
