

## Threat Update Service\* Advisory Protection Pack 2014-08-14-01 Released August 14, 2014

**Purpose:** The Corero Security Active Response Team has issued this Prevention Advisory to protect customers against potential attacks targeting the Adobe Reader CVE-2014-0546 Sandbox Bypass Vulnerability.

**Issue:** A sandbox bypass vulnerability exists in the Adobe Reader. This could allow an attacker to bypass intended restrictions on the victim's machine by enticing the victim to open a specially crafted website and thereby execute arbitrary code.

**Recommended Action:** Apply the specified Protection Pack (or any later one) and ensure the associated rule is used to inspect traffic to the affected product infrastructure.

<b>Issue Identifier</b>	CVE-2014-0546
<b>Advisory</b>	<a href="http://helpx.adobe.com/security/products/reader/apsb14-19.html">http://helpx.adobe.com/security/products/reader/apsb14-19.html</a>
<b>Risk Assessment</b>	Critical Vulnerability
<b>Threat Impact</b>	Remotely exploitable vulnerability that could allow an attacker to bypass security restrictions on an unprotected system.
<b>Affected Products</b>	Adobe Reader and Acrobat 10.x before 10.1.11 and 11.x before 11.0.08 on Windows
<b>Corero Products</b>	IPS 5500 EC-Series and IPS 5500 ES-Series v6.60 (build 047 and later), v6.61 (build 021 and later), v6.80 (build 035 and later), v6.82 (build 003 and later).
<b>Associated Rule</b>	tln-106912
<b>Associated Rule Set</b>	This rule has to be enabled manually.
