

Threat Update Service* Advisory
Protection Pack 2014-11-12-01 Released November 12, 2014

Purpose: The Corero Security Active Response Team has issued this Prevention Advisory to protect customers against potential attacks targeting the Microsoft Internet Explorer CVE-2014-6340 Information Disclosure Vulnerability.

Issue: Internet Explorer does not properly enforce cross-domain policies. This could allow an attacker to gain access to sensitive information by enticing the victim to open a specially crafted website.

Recommended Action: Apply the specified Protection Pack (or any later one) and ensure the associated rule is used to inspect traffic to the affected product infrastructure.

Issue Identifier	CVE-2014-6340, MS14-065
Advisory	http://technet.microsoft.com/en-us/security/bulletin/ms14-065
Risk Assessment	Critical Vulnerability
