

Threat Update Service* Advisory
Protection Pack 2013-09-05-01 Released September 6, 2013

Purpose: The Corero Security Active Response Team has issued this Prevention Advisory to protect customers against known attacks targeting the Mozilla Firefox XMLSerializer Use-After-Free Vulnerability.

Issue: A use-after-free vulnerability exists in the XMLSerializer component in Mozilla Firefox. This could allow an attacker to execute arbitrary code on the system and possibly take complete control of the system via a specially crafted website.

Recommended Action: Apply the specified protection pack (or any later one) and ensure the associated rule is used to inspect traffic to the affected product infrastructure.

Issue Identifier	CVE-2013-0753
Advisory	http://www.mozilla.org/security/announce/2013/mfsa2013-16.html
Risk Assessment	Critical Vulnerability
