

Threat Update Service* Advisory
Protection Pack 2013-06-11-01 Released June 11, 2013

Purpose: The Corero Security Active Response Team has issued this Prevention Advisory to protect customers against known attacks targeting the Siemens Solid Edge WebPartHelper ActiveX Remote Code Execution Vulnerability.

Issue: A remote code execution vulnerability exists in the Siemens Solid Edge WebPartHelper ActiveX control. This could allow an attacker to execute arbitrary code on the victim's machine and possibly take complete control of an affected system.

Recommended Action: Apply the specified protection pack (or any later one) and ensure the associated rule is used to inspect traffic to the affected product infrastructure.

Issue Identifier	BID: 60158
Advisory	http://www.securityfocus.com/bid/60158/discuss
Risk Assessment	Important Vulnerability
Threat Impact	Remotely exploitable vulnerability that could allow an attacker to gain full control of an unprotected system.
