

**Threat Update Service\* Advisory**  
**Protection Pack 2014-03-06-01 Released March 6, 2014**

**Purpose:** The Corero Security Active Response Team has issued this Prevention Advisory to protect customers against known attacks targeting the Symantec Endpoint Protection Manager Remote Command Execution Vulnerability.

**Issue:** A remote command execution vulnerability exists in the management console of the Symantec Endpoint Protection Manager. This could allow an attacker to execute arbitrary code on the affected system via XML data containing an external entity declaration in conjunction with an entity reference.

**Recommended Action:** Apply the specified protection pack (or any later one) and ensure the associated rule is used to inspect traffic to the affected product infrastructure.
